Caffriend

PitchTank Founder Report

PITCH SUMMARY

Caffriend is a swipe-based networking app that connects job seekers and industry professionals for virtual or in person coffee chats. Designed to make mentorship effortless and rewarding, Caffriend helps professionals monetize their time while giving job seekers meaningful career insights. Through a familiar, Tinder-style interface, users can match based on industry, goals, and experience turning networking into an engaging, personalized experience.

PRICE HISTORY

FEEDBACK HIGHLIGHTS

The feedback for Caffriend indicates a mix of positive and critical responses. Many investors appreciate the innovative concept and its potential to connect job seekers with industry professionals, highlighting the relevance of the service in the current job market. However, concerns were raised about the app's ability to compete with established platforms like LinkedIn and the monetization strategy for mentors. Additionally, some investors noted issues with the presentation's interactivity and clarity. Overall, while there is enthusiasm for the idea, further validation and refinement of the business model are necessary.

the tinder based swiping component gamifies a market.

(Zahin Mohammad)

Why included: Highlights a unique feature that could enhance user engagement.

The problem is painful and relevant however I'm concerned about the profitability and revenue stream.

(David)

Why included: Addresses a critical aspect of the business model that needs attention.

Presentation was not as interactive as I was hoping.

(Muhammad Raza)

Why included: Provides actionable feedback on improving presentation skills.

Liquidating my assets

(Suzanne Grant)

Why included: Indicates investor sentiment and potential concerns about the investment.

Still early stage. Need more validation to show you'll beat LinkedIn.

(David)

Why included: Emphasizes the need for competitive analysis and validation.

Potential for churn, tarpit app.

(Asher Essien)

Why included: Raises a concern about user retention that needs to be addressed.
